ACCOMODATION

Delegates are advised to make their own arrangements for stay in Lucknow either at the venue hotel or in nearby hotels. November is a busy post covid marriage season hence early booking of accomodation is advised to avoid inconvenience

ABOUT LUCKNOW

Lucknow is the capital and the largest city of Uttar Pradesh. It has always been multicultural with the best mix of historical buildings, modern malls, academic universities of all streams, centre of governance administration, aerospace, culture, music and poetry. It combines the charm and modern life of big metros with the peace and solace of a small city

OBJECTIVES

After the CME, the participants should be able to:

- Learn the basics of acute burn care
- Learn the basics of fluid management in burns
- Learn the basics of splinting in burns
- Learn the basics of emergency management of burns
- Learn the basics of dressings in burn management
- Learn the basics of surgical techniques in burn deformity correction
- Learn the recent advances in burn management

NATIONAL ACADEMY OF BURNS INDIA (NABI) MID TERM Hybrid VIDEO CME

November 6-7, 2021

**HOTEL GEMINI CONTINENTAL
LUCKNOW**

INVITATION

Burns has always taken the centrestage in the specialty of plastic surgery. It is historical, ubiquitous, universal and every plastic surgeon has performed burn treatment at some stage of their professional career. India has a very high incidence of burns which is largely attributed to illiteracy, poverty and low level safety consciousness in the population. The situation becomes complicated due to absence of organised burn care at both the primary and secondary health tiers. The management principles of burns like any subspecialty of plastic surgery have been continuously evolving over the years in tandem with the advances in instrumentation, microbiology and understanding of burn pathology using easy to understand videos prepared by experts.

This VIDEO CME having "How I do it" videos will be especially useful to the residents, postgraduates and younger colleagues to gain technical insight into the nuances of burn deformity correction. The meeting will be held in hybrid mode with limited physical attendance keeping COVID safety measures and the majority of the delegates would be in online mode. The meeting will feature presentations by prominent and leading international and national experts.

On behalf of the organising committee it is a pleasure to invite you all to participate in this hybrid CME. The first 50 registrants will have a chance to be physically present in the auditorium.

Looking forward to welcome you to the city of Lucknow for this academic feast.

DR. RAJIV AGARWAL
Organising Chairperson
